

Naini—when we first met

Naini

goes from college to corporate

Having moved from Indore to Mumbai to pursue an MBA degree, Naini wanted to be ready in every way for the corporate world. So we pulled out our rolodexes and all stops, and gifted her an everything-included makeover

Dr Jaishree Sharad talks to Naini

FIRST STOP

A consultation with Dr Jaishree Sharad, cosmetic dermatologist and director, Skinfiniti Skin & Cosmetology Clinic, and skin doc to the celebs

WHAT NAINI GOT

According to Dr Jaishree, what Naini thought was a dandruff attack, was actually a fungal infection! So she recommended a medicated anti-dandruff shampoo as well as some medication to take care of it. Naini also showed a genetic tendency towards premature greying for which Dr Sharad prescribed calcium supplements. For Naini's sensitive skin, Dr Sharad suggested an increase her intake of orange and red fruits and vegetables, to get her daily nutritional requirement of vitamins A, C and D.

Examining Naini's skin type

Naini has her hair looked at

WHAT NAINI THOUGHT

All of Dr Sharad's suggestions were really sensible, and I'm especially glad that I now have some way to fix my hair."
